4.37.0

Release Notes - Webdesk - Version 4.37.0 - January 12, 2022

Bug

- [WD-11855[1]] - Fixed an issue that caused the names of certificates in HR-Expert reports not to be displayed correctly.
- [WD-13595[2]] - Fixed an issue in monthly project time tracking that made the action unusable after an incorrect entry.

New Feature

- [WD-8267[3]] - Added a loading indicator to autocomplete fields.
- [WD-13271[4]] - The kiosk status indicator was added to the list of all kiosks.
