4.45.0

Release Notes - Webdesk - Version 4.45.0 - August 8, 2022

Bug

- [WD-13391[1]] - Fixed an issue that caused the date parameters in certain reports not to be displayed correctly on first load.
- [WD-13806[2]] - Optimizations when opening the list of persons.

New Feature

- [WD-14095[3]] - Tax rates for receipts can now be linked to regions.
- [WD-14378[4]] - New option when editing project times: When editing days, the duration of bookings now automatically matches the attendance time.
- [WD-13210[5]] - Activities for projects **must** now be assigned to structures.
- [WD-14047[6]] - It is now possible to undo terminations (exits) that have already taken effect in the future.
- [WD-14299[7]] - Vacation requests now have an option to take the unapproved vacation days (from other vacation requests that have not yet been approved) into account in the calculation.
- [WD-14344[8]] - There is now an option to delete all bookings of the affected days for sick leave notifications.
