# 4.46.0

Release Notes - Webdesk - Version 4.46.0 - September 21, 2022

## Bug

- [WD-11737[1]] - Fixed an issue with the display of date values in the project time report.
- [WD-14099[2]] - Fixed an issue in the HR-Expert report that caused certain filters not to be translated.
- [WD-14129[3]] - Fixed an issue with the filters in workflow lists that left no selection option available in certain cases.
- [WD-14193[4]] - Fixed an issue with the display of the context menu in JournalV2.
- [WD-14432[5]] - Fixed an issue when exporting the person list in HR-Expert.
- [WD-14468[6]] - Fixed an issue that made it impossible to set a root folder in the file explorer.
- [WD-14469[7]] - Fixed an issue that made it impossible to start processes with two or more attachments.

## New Feature

- [WD-12869[8]] - The new "Amounts" tab in weekly programs can now be configured in Webdesk.
- [WD-13475[9]] - New search function in the user settings.
- [WD-14174[10]] - New UIs for configuring the kiosk from within Webdesk.

## Improvement

- [WD-13798[11]] - Local administrators can now edit the validity of persons.
- [WD-14228[12]] - New search function in the Time Tracking tab of persons.
- [WD-14258[13]] - UX improvement when editing projects
