New Features in 4.48

Combined Project & Time Correction

This new action allows you to start correction requests for time tracking and project times at the same time. The action automatically loads all project efforts and booking intervals of a day and allows you to make changes to them.

> WARNUNG
>
> **WARNING:** Changes made with this request overwrite all existing bookings & efforts!

This form also has a copy function to quickly transfer from-to times of attendance times to project times.

- First click the copy icon next to an attendance:

- Then right-click in a project time row to open the menu and then select "Paste".
