4.50.2

Release Notes - Webdesk - Version 4.50.2 - March 1, 2023

Bug Fixes

- [WD-14510[1]] - Fixed an issue in the cell format of Excel evaluations
- [WD-14759[2]] - Fixed an issue that caused error messages when canceling the creation of new employment statuses
- [WD-15237[3]] - Fixed an issue with on-call duty when the "to" time is 00:00
- [WD-15248[4]] - Fixed an issue when creating special permissions
- [WD-15257[5]] - Fixed an issue in time corrections when a "to" interval is 00:00
- [WD-15262[6]] - Fixed an issue that made it impossible to sort lists
- [WD-15264[7]] - Fixed an issue in time corrections (with automatic loading of bookings) that caused no bookings to be loaded when the form was opened via a context menu
