4.50.3

Release Notes - Webdesk - Version 4.50.3 - March 3, 2023

Bug Fixes

- [WD-14830[1]] - Fixed an issue in the mobile view of JournalV2 that caused too many empty areas in the display
- [WD-15259[2]] - Fixed an issue that caused the markers for required fields not to be displayed correctly
- [WD-15269[3]] - Fixed an issue that caused a JavaScript pop-up when an expense report was added to a travel folder
- [WD-15285[4]] - Fixed an issue in JournalV2 that occurred when users were in other time zones (not UTC+1)
