4.50.5

Release Notes - Webdesk - Version 4.50.5 - March 14, 2023

Bug Fixes

- [WD-15104[1]] - The date picker in ta_showPersonalData works again
- [WD-15271[2]] - The print view of business trips no longer contains an empty page 1
- [WD-15284[3]] - For receipts in international business trips that relate to the last day of the trip, the start region can now always be selected as well.
