4.58.6

Release Notes - Webdesk - Version 4.58.6 - August 7, 2024

Bug Fix

- [WD-17357[1]] - Fix for an issue that blocked the display of process details for an open request in Workflow

Improvement

- [WD-17219[2]] - Event Management: The event manager can now also edit a request from the Event Assistant when the workflow assignment has changed.
