4.64.6

Release Notes - Webdesk - Version 4.64.6 - June 20, 2026

Bug Fixes

Time & Attendance

- [WD-21116[1]] - Fix for an issue where no data was displayed in the journal and calendar for former employees in the correction or absence client.
- [WD-21113[2]] - Fix for an issue where an error message could occur when opening new employees with a future start date in the correction client.
- [WD-21112[3]] - Fix for an issue where an error message could occur in the time correction form.

Login / Logout

- [WD-21114[4]] - Fix for an issue where only a blank page was displayed after logging out.
