4.64.34

Release Notes - Webdesk - Version 4.64.34 - August 25, 2026

Bug Fixes

Time & Attendance

- [WD-22101[1]] - Fix for an issue where the monthly total row in the time tracking statistics incorrectly displayed a dash instead of the correct total for empty months.

Travel Expense Tracking

- [WD-21603[2]] - Fix for an issue where validation errors in the 'Receipts' tab of travel expense tracking were not visible on Surface tablets.

Reporting

- [WD-20945[3]] - Fix for an issue where education entries without a status were not displayed in the 'Education' report.

Administration

- [WD-22139[4]] - Fix for an issue where the button for creating a new client temporarily disappeared after a client was created.

Permissions

- [WD-22116[5]] - Fix for an issue where changes to permissions did not take effect immediately because the permission cache was not updated automatically.

Other Bug Fixes

- [WD-22147[6]] - Fix for an issue where the button for canceling workflows was not always displayed correctly.
- [WD-22115[7]] - Fix for an issue where error messages about build results for frontend tests were sent in error.
