Mitarbeiterportal

Modern HR management is increasingly accompanied by the term "Employee Self Service". This term refers to a **personalized web portal**, which provides current information and various services. **Information bundling** and a selected range of functions support the access to various contnts, **simplify workflows** and improve internal communication. Through the **integration of user directories** (eg LDAP, Active Directory) the user authorisations are transferred automatically, what guarantees a controlled access to contents and functions.

Key functions:
• Employee Self Service by a personalised webportal • Each employee has access to authorised information, in accordance with his/her function in the company • Presentation of information from the personnel- and ERP-systems • Access to appropriate contents and processes for target groups • Integration of existing database systems

Authorisation control[1]	**Technical concept**[2]
