Time management

Mountains of paper and high logistical costs aren`t necessary to keep your time management in order. Webdesk EWP provides a portal, which can be customised according to the needs of your employees and your company. Quick and easy time bookings, queries and reports are possible as well as the handling of time corrections or vacation requests via defined workflows. Webdesk EWP introduces the classic booking terminal in form of a web application on each and every PC working station.

The open technology allows a seamless integration of remote workers. The integrated workflow-engine of Webdesk EWP ensures a rapid processing of **approvable- and planning processes** around the time management. The flexible process definition adresses and reflects the specific requirements of your company. Paperless requests and the systematisation of the processes make shorter running time possible and increase the service quality of the entire time managament in your company.
