

4.64.2

Release Notes - Webdesk - Version 4.64.2 - June 17, 2026

Improvements

Time & Attendance

- [[WD-21064](#)¹] - The dialog for selecting contract field values is now also displayed during the activation of time tracking and the creation of employments.

Travel Expense Tracking

- [[WD-21053](#)²] - Fix for an issue where saving a trip could fail under certain circumstances.

Bug Fixes

Time & Attendance

- [[WD-21039](#)³] - Fix for an issue where the entry date was not displayed correctly after the automatic creation of a time tracking record.
- [[WD-20479](#)⁴] - Fix for an issue where planned changes to the target time factor were not applied correctly and an invalid daily program was assigned.

Other Bug Fixes

- [[WD-21063](#)⁵] - Fix for an issue where selected configuration options in the test form were not saved correctly.
