

4.64.9

Release Notes - Webdesk - Version 4.64.9 - June 24, 2026

Bug Fixes

Time & Attendance

- [[WD-21164](#)¹] - Fix for an issue where, in the HR Expert module, data of the previous person was still displayed after switching to a person without time tracking.
- [[WD-21158](#)²] - Fix for an issue where incorrectly entered dates in the time tracking correction form were converted to wrong years.
- [[WD-21156](#)³] - Fix for an issue where clearing the date field in the time tracking correction resulted in an error message instead of a validation.

Travel Expense Tracking

- [[WD-21153](#)⁴] - Fix for an issue where amount values for receipts with multiple VAT configurations changed unexpectedly after switching between tabs.
- [[WD-21117](#)⁵] - Fix for an issue where travel expense reports in draft status could no longer be opened or edited.
- [[WD-21085](#)⁶] - Fix for an issue where not all uploaded attachments were displayed in the “Files” tab of a travel expense report.

Administration

- [[WD-21163](#)⁷] - Fix for an issue when accessing the “Payroll” area in the settings of the client “Sick”, where an error message occurred.
