

Improvements

Time & Attendance

- [[WD-20115](#)¹] - The selection label below the button in the team overview now adapts dynamically to the chosen selection, such as favorites or groups.

HR Expert

- [[WD-21138](#)²] - The person list in HRX now shows whether time tracking is enabled for the current employment.

UI / UX

- [[WD-21055](#)³] - Optimized use of width and layout of the annual calendar on mobile devices for better usability.
- [[WD-21016](#)⁴] - The filters in the annual calendar are now displayed on mobile devices as a clearer modal dialog.
- [[WD-20967](#)⁵] - Automatic positioning of the inspector window in the annual calendar depending on screen size and selection area.

Bug Fixes

Time & Attendance

- [[WD-21178](#)⁶] - Fix for an issue where absences were not displayed in the PDF export of the organization calendar.
- [[WD-21175](#)⁷] - Fix for an issue where starting a time correction with an empty date field resulted in an error message.
- [[WD-21041](#)⁸] - Fix for an issue where absence reasons were not displayed in Journal V1.

Reporting

- [[WD-21182](#)⁹] - Fix for an issue where some persons were not displayed in the HRX report "Birthdays and Anniversaries".

Interfaces

- [[WD-21181](#)¹⁰] - Fix for an error where an error message was displayed when starting linked connectors without certain settings.

Mobile App

- [[WD-20728](#)¹¹] - Fix for an issue where the refresh button was displayed in the wrong color scheme on mobile devices after the action completed.

UI / UX

- [[WD-20839](#)¹²] - Fix for an issue where no selection or drag handles were displayed in the annual calendar at certain window sizes.

Other Bug Fixes

- [[WD-13441](#)¹³] - Fix for an issue where the formatting of multilingual help texts in processes was lost after saving.
