

### New Features

#### Time & Attendance

- [[WD-20820](#)<sup>1</sup>] - Error messages for validation problems in the annual calendar are now forwarded correctly to the user interface.

### Improvements

#### Travel Expense Tracking

- [[WD-20248](#)<sup>2</sup>] - Improvement of the deduction rules for trips to take into account multiple, consecutive business trips in accordance with legal requirements.

#### Other Improvements

- [[WD-21213](#)<sup>3</sup>] - Improvement of the internal development workflow for automatically optimizing code quality for static Java imports.

### Bug Fixes

#### Time & Attendance

- [[WD-21220](#)<sup>4</sup>] - Fix for an issue in the time tracking settings where technical information could unexpectedly be displayed in the user interface.
- [[WD-20622](#)<sup>5</sup>] - Fix for an issue where multi-day absences entered directly were incorrectly displayed as single-day absences.

#### Project Time Tracking

- [[WD-21195](#)<sup>6</sup>] - Fix for performance issues in the project time tracking module that could lead to long load times.

#### Travel Expense Tracking

- [[WD-21172](#)<sup>7</sup>] - Correction of the layout display of routes and stays in the travel expense tracking area.
- [[WD-20751](#)<sup>8</sup>] - Fix for an issue where an error dialog was displayed under certain circumstances when saving a trip draft.

#### HR Expert

- [[WD-21226](#)<sup>9</sup>] - Fix for an issue where error messages could occur during the Excel export of the employee list in HR Expert.
- [[WD-21088](#)<sup>10</sup>] - Fix for an issue where changes to the contract type were not saved for planned employments.

## Kiosk

- [[WD-21223](#)<sup>11</sup>] - Fix for an issue that prevented the Webdesk user interface from being displayed in the kiosk iFrame.

## UI / UX

- [[WD-21101](#)<sup>12</sup>] - Fix for issues with missing or inconsistent branding manifests and application icons, which prevents error messages in production.

## Miscellaneous

- [[WD-21206](#)<sup>13</sup>] - Adjustment of the internal build environment for better isolation of parallel development environments when using Maven.
