

Improvements

UI / UX

- [[WD-21357](#)¹] - The error page now offers the option to report an error directly to support via a form and to include a problem description.

Bug Fixes

Time & Attendance

- [[WD-21354](#)²] - Fix for an issue where the daily target for the current day was not displayed in the journal.

Travel Expense Tracking

- [[WD-20859](#)³] - Fix for an issue where daily deductions were not applied correctly for trips with 24-hour calculation.

HR Expert

- [[WD-21298](#)⁴] - Fix for an issue where person data in the HR module could no longer be edited if the time tracking module was unreachable or not configured.

Miscellaneous

- [[WD-21350](#)⁵] - Adjustment of internal tests to fix errors in automated test runs.
- [[WD-21338](#)⁶] - The CSV export via PsSalaryComponentsConnector now contains the field variableUsageType, which allows better mapping of the exported values.
