

Improvements

Time & Attendance

- [[WD-21616](#)¹] - Optimization of the display of the attendance overview through staggered loading of the display data for faster rendering of the first visible entries.

Travel Expense Tracking

- [[WD-21619](#)²] - Improvement of the display and calculation of prepaid amounts in the travel expense tracking area.

UI / UX

- [[WD-21644](#)³] - Improvement of the display after a successful failover so that the connection loss icon no longer appears incorrectly.

Bug Fixes

Time & Attendance

- [[WD-21674](#)⁴] - Fix for an issue where editing persons was not possible on TA installations without an HR license.

Project Time Tracking

- [[WD-21617](#)⁵] - Fix for an issue where saving project permissions could fail under certain circumstances.

Travel Expense Tracking

- [[WD-21602](#)⁶] - Fix for an issue where editing incomplete travel expense report drafts could result in an error.
- [[WD-19727](#)⁷] - Fix for an issue where certain deductions could not be deleted in the travel expense report configuration.

HR Expert

- [[WD-21682](#)⁸] - Fix for an issue where indexing failed when a person had multiple concurrent employments.

Administration

- [[WD-21645](#)⁹] - Fix for an issue where deleting a client with an assigned legislation could fail.

Interfaces

- [[WD-21592](#)¹⁰] - Improvement of the logging at the completion of connector synchronizations so that the duration and result are traceable even for successful runs.

- [[WD-21583](#)¹¹] - Fix for an issue where certain interface jobs had unnecessarily long runtimes because records were saved multiple times even when there were no changes.

Other Bug Fixes

- [[WD-21590](#)¹²] - Fix for an issue where an unusually high number of user sessions was caused by monitoring requests.
- [[WD-21589](#)¹³] - Fix for an issue in the replication of cache messages that could lead to data inconsistencies when nodes were restarted.
- [[WD-21582](#)¹⁴] - Fix for an issue that caused certain server processes to regularly become unreachable.
