

Improvements

Travel Expense Tracking

- [[WD-21902](#)¹] - Improvement of the filter in the workflow lists so that only employees with open tasks are displayed.

Other Improvements

- [[WD-17159](#)²] - Extension of the export function for attachments so that it is now also available directly in the workflow list and in the details of requests.

Bug Fixes

Time & Attendance

- [[WD-22043](#)³] - Fix for an issue where the time and absence request form continued to display the data of the previous user after a user switch.

Project Time Tracking

- [[WD-22099](#)⁴] - Fix for an issue where project time management was no longer usable on individual servers due to a deadlock.

Travel Expense Tracking

- [[WD-19858](#)⁵] - Fix for an issue where empty input fields for the region selection were incorrectly displayed when the tab for daily deductions was opened for the first time.

HR Expert

- [[WD-22071](#)⁶] - Fix for an issue where saving personnel data in the background could lead to untraceable errors.
- [[WD-21330](#)⁷] - Fix for an issue where saving personnel data could fail if an empty time tracking ID was present.
- [[WD-16764](#)⁸] - Fix for an issue where changes to salary items were not validated correctly when saving.

Reporting

- [[WD-22081](#)⁹] - Fix for an error where the export job for monthly bookings could fail for active employees without an exit date.

User Settings

- [[WD-22086](#)¹⁰] - Fix for an issue where deleting or saving a substitute assignment without an assigned person resulted in an error message.

Administration

- [[WD-22095](#)¹¹] - Correction of translations and labels in the role management area to ensure a consistent and complete display.

Permissions

- [[WD-22039](#)¹²] - Fix for an issue where individual users of a specific client temporarily had no permissions at login.

Interfaces

- [[WD-22087](#)¹³] - Fix for an issue where database names containing hyphens on SQL Server could cause errors at system startup.

Miscellaneous

- [[WD-21290](#)¹⁴] - Addition of a help text and adjustment of the label for the Notify Author field in the Simple Process Editor.
