

Bug Fixes

Time & Attendance

- [[WD-22385](#)¹] - Fix for an issue where planned and unplanned vacation hours in the virtual accounts were incorrect with hour-based calculation and on special days such as December 24 and December 31.
- [[WD-22282](#)²] - Fix for an issue where remarks and details in the absence detail view were not displayed even though pseudonymization was not active.

Project Time Tracking

- [[WD-22100](#)³] - Fix for an issue where the change history for project time entries from past months could not be displayed.

HR Expert

- [[WD-22392](#)⁴] - Fix for an issue where deactivating a position failed.

Login / Logout

- [[WD-22389](#)⁵] - Fix for an issue where the loss of the SSO session during Ajax requests was not detected and no new login was triggered.
