

Time Tracking

- [[WD-15430](#)¹] - Improvement of loading speeds for forms where either the supervisor must be selected, or that can be started for someone else.
- [[WD-15446](#)²] - The booking form is now refreshed automatically if the browser tab with this form was inactive for an extended period of time.
- [[WD-15656](#)³] - Loading of future bookings in the correction client can now be disabled.
- [[WD-15203](#)⁴] - Fixed an issue that caused the booking form not to display the correct time when the user is in a different time zone.
- [[WD-15338](#)⁵] - Bug fix when creating requests: forwarding requests without selecting a supervisor is possible; in such cases the request is submitted to the first-ranked responsible supervisor.
- [[WD-15306](#)⁶] - Bug fix in the Processes area for users authorized to submit requests also for other users: the loading time when creating the form for requests and for the person selection list was significantly reduced

Groupware

- [[WD-11927](#)⁷] - It is now possible to restrict external APIs to groups using a black/whitelist
- [[WD-15329](#)⁸] - Improvement of the end date calculation for Groupware events when several consecutive absences occur

Administration

- [[WD-14813](#)⁹] - The "Valid from" date of groups can now be edited during creation:
- [[WD-14853](#)¹⁰] - Fixed an issue that caused not all mandatory org groups to be validated when a person was created
- [[WD-15432](#)¹¹] - Performance improvement when assigning permissions for projects
- [[WD-15529](#)¹²] - Fixed an issue that made it impossible to filter the default travel destinations by client
- [[WD-15609](#)¹³] - Fixed an issue that caused the "Hierarchical" option for org structures not to be loaded correctly - REGRESSION
- [[WD-15157](#)¹⁴] - Fields that are not relevant for administrators or could not be used by them were hidden, e.g. the ability to edit role badges.

HR Expert

- [[WD-14916](#)¹⁵] - The group selection of the full-time equivalent evaluation no longer contains cost centers and locations
- [[WD-15506](#)¹⁶] - Performance improvement of the irregularities list in HR Expert
- [[WD-14273](#)¹⁷] - Bug fix for the Certificates area: the assignment of certificates to a person was again restricted to one certificate per certificate group at a time.

- [[WD-15152](#)¹⁸] - Bug fix for the Qualifications area: uploading documents to a specific qualification is possible again.
