4.51.0

Release Notes - Webdesk - Version 4.51.0 - April 5, 2023

UI/UX

- [WD-14642[1]] - New loading spinner

Time Tracking

- [WD-13537[2]] - The display of used/remaining vacation days in vacation requests now also takes half-day entries into account, see Requests/Vacation[3]

Combined Project & Time Tracking

- [WD-15353[4]] - Performance improvement when opening days with many time bookings
- [WD-15358[5]] - New configuration option: it is now possible to select which information is displayed in the workflow lists for this process
- [WD-15361[6]] - New configuration option: if no changes are made to time bookings, the request is approved automatically
- [WD-15389[7]] - The "Copy" & "Delete" buttons are now always in the same row
- [WD-15427[8]] - Fixed an issue that caused the working time display to show nothing when intervals exceed the core time
- [WD-15356[9]] - Fixed an issue that caused the attendance time not to be shown correctly
- [WD-15357[10]] - Fixed an issue that caused the project time not to be set automatically when selecting projects
- [WD-15359[11]] - Fixed an issue that caused project times not to be saved correctly when no from-to times were entered
- [WD-15436[12]] - Fixed an issue that caused changes to existing project times not to be saved correctly

Evaluations

- [WD-14609[13]] - In Webdesk evaluations in which columns can be hidden, hidden columns are now also no longer shown in print/PDF/XLS exports

Business Trip Expense Report

- [WD-14732[14]] - Fixed an issue that caused additional fields not to always be translated correctly
- [WD-15171[15]] - New configuration option: it is now possible to display per diems for international trips in foreign currencies
- [WD-15172[16]] - New configuration option: it is now possible to change the reference date for travel receipts
- [WD-15333[17]] - New configuration option: it is now possible to display all regions for receipts

Project Time Tracking

- [WD-15388[18]] - Fixed an issue that made it impossible to save a project when it had group permissions

HR Expert

- [WD-14904[19]] - Maternity protection is now calculated using the date in the "Actual date of birth" field, see Managing Parental Leave. [20]

Administration

- [WD-15072[21]] - There is now a new button when editing persons to open them directly in HR Expert, see also Person Overview / Extension for HR Expert Users.[22]
- [WD-14172[23]] - Connector link mappings can now be edited via drag & drop

Document Management

- [WD-15024[24]] - The file explorer now has a "Download" button
