

This Version Includes the Following New Features

- [[WD-14248](#)¹] - Combined Project & Time Correction
- [[WD-14569](#)²] - React Date Pickers

Corrections Were Made in the Following Program Components

- [[WD-14458](#)³] - Assignment of permissions for projects
- [[WD-14755](#)⁴] - Deletion of persons who are still stored as current assignees in processes
- [[WD-12279](#)⁵] - Fixed the display of page navigation in the person search

Improvements for Optimal Use

- [[WD-14560](#)⁶] - in the area of creating cost centers in HR Expert
- [[WD-14315](#)⁷] - in the area of the GDPR evaluation
- [[WD-14810](#)⁸] - The monthly journal now ends exactly with a person's termination date
- [[WD-14307](#)⁹] - The summary of account values in the monthly journal is now also displayed for the current month
- [[WD-14313](#)¹⁰] - Improvement of the display of reports on person addresses in HR Expert
- [[WD-14358](#)¹¹] - Improvement of the display of future weekly programs and part-time percentages
- [[WD-14430](#)¹²] - Improvement of the placeholder variable "\$toDate" in the out-of-office email for open absence reasons (sick leave notification)

System Changes

- [[WD-11070](#)¹³] - Update from Log4J to Log4J2. **Warning:** TaCon log settings are reset to the default as a result. See the 4.48+ section [here](#)¹⁴.
