

4.63.3

Release Notes - Webdesk - Version 4.63.3 - undefined

Improvements

Project Time Tracking

- [[WD-14704](#)¹] - Project favorites made available in monthly project time tracking as well, to simplify selection.

HR Expert

- [[WD-20141](#)²] - Search function added to the educational institution dialog in HR Expert to make selection easier and increase usability.

Permissions

- [[WD-20157](#)³] - Improvement of po_showDataTransferHistory: taking into account the view permissions per client.

Other Improvements

- [[WD-19887](#)⁴] - Display of trip segments improved by adding visual spacing between panels.
- [[WD-19884](#)⁵] - Date range for trip segments made more compact to increase clarity.

Bug Fixes

Time & Attendance

- [[WD-18365](#)⁶] - Fixed an error message in time tracking (TaDefinitionRestEndpoint) that could lead to instabilities.
- [[WD-20155](#)⁷] - Fix for an issue when selecting TA field groups.

Project Time Tracking

- [[WD-20211](#)⁸] - Fix for a navigation issue when editing project times.

Reporting

- [[WD-20032](#)⁹] - Fixed an error in the booking list that led to an error message when running the report.

User Management

- [[WD-19545](#)¹⁰] - Fixed an error that caused the desired tab not to be opened when po_editPerson.act was called via a link.

Interfaces

- [[WD-20237](#)¹¹] - Fix for an error message when running the Tool Agent during the assignment of travel expenses.
- [[WD-20197](#)¹²] - Fix for an error in the upgrade script for TA version 49

Login/Logout

- [[WD-19146](#)¹³] - Fixed a security vulnerability in the login form that allowed open redirects.

Performance

- [[WD-20204](#)¹⁴] - Optimization of the source map structure to avoid duplicate files in debugging tools.
