

4.62.8

Release Notes - Webdesk - Version 4.62.8 - January 20, 2026

Improvements

Kiosk

- [[WD-20028](#)¹] - New kiosk setting added: The “EnableWebdeskIFrame” option allows enabling or disabling the IFrame display of Webdesk within the kiosk.

Bug Fixes

Interfaces

- [[WD-20052](#)²] - Adjustment of the logging in TaSyncCalendarDates: error messages about invalid or inactive email addresses are no longer logged as errors, to avoid unnecessary notifications.

Login/Logout

- [[WD-20050](#)³] - Fix for an error in the restoration of user sessions that led to loading problems of the Webdesk user interface after schema changes.
