

4.33.0

Release Notes - Webdesk - Version 4.33.0 - September 27, 2021

Bug

- [[WD-12870](#)¹] - Fixed an issue in the JournalV2 export that caused column names not to be displayed correctly.
- [[WD-13148](#)²] - Fixed an issue in the statistics dashlet in HR-Expert.

Feature

- [[WD-12957](#)³] - Comments on processes can now contain up to 254 characters.
- [[WD-12975](#)⁴] - It is now possible to inherit vehicle assignments (for business trips) and subgroups.
- [[WD-13061](#)⁵] - In addition to the creation date, the job "deleteOldWfData" can now also remove processes based on their reference date (the date that relates to the process content).
- [[WD-13100](#)⁶] - When comments are made in the correction client, it now also saves the author.
