

4.28.6

Bug

- [[WD-8489](#)¹] - Fixed an issue that caused not all role holders of a role to be displayed.
- [[WD-12706](#)²] - Fixed an issue that caused the valid-until date of roles not to be set correctly when deleting a group to which roles are assigned
- [[WD-12714](#)³] - Fixed an issue that caused system messages not to display HTML lists correctly
- [[WD-12771](#)⁴] - Fixed an issue that caused travel expense requests that were previously created as a simple business trip to be incorrectly validated against themselves
- [[WD-12847](#)⁵] - Fixed an issue that caused a message to be displayed that Webdesk was unreachable when the user session expired
- [[WD-12903](#)⁶] - Fixed an issue that made it impossible to create a contract type that is assigned to a client
- [[WD-12981](#)⁷] - Fixed an issue that made it impossible to create a person in time tracking via the TaPersonConnector and override the entry date at the same time
- [[WD-11941](#)⁸] - Improved the Time Tracking tab in HRX so that long field names are now displayed better
