

4.21.0

Release Notes - Webdesk - Version 4.21.0 - February 11, 2021

Bug

- [[WD-11858](#)¹] - Fixed an issue where the action "hr_showPersonProfile" assigned default permissions to all persons with every system update.
- [[WD-12094](#)²] - Fixed an issue where it was not possible to see your own private appointments created in Microsoft Office365.
- [[WD-12236](#)³] - Fixed an issue where the part-time factor was not displayed correctly in the personal information.
- [[WD-12237](#)⁴] - Fixed an issue where only your own monthly journal was displayed when requests were made for other persons.
- [[WD-12335](#)⁵] - Fixed an issue where it was not possible to save cost centers when the sum of all cost center types was exactly 100%.

New Features

- [[WD-11872](#)⁶] - It is now possible to select all identical actions in the workflow lists with a single click.
- [[WD-12083](#)⁷] - It is now possible to edit the Webdesk branding.
- [[WD-12158](#)⁸] - It is now possible to show the daily program in the month view of the correction client.
- [[WD-12012](#)⁹] - It is now possible to enter the number of hours manually in the monthly project time tracking.
- [[WD-12333](#)¹⁰] - The VAT values of the receipts in the travel expense report are now displayed in sorted order.
