

4.19.14

Release Notes - Webdesk - Version 4.19.14 - April 9, 2021

Bug

- [[WD-12355](#)¹] - Fixed an issue where BIRT reports in Webdesk did not export the correct data in Excel format
- [[WD-12407](#)²] - Fixed an issue where the "More" button in HR-Expert was not visible directly after creating the person if the user does not have certain access rights
- [[WD-12583](#)³] - Fixed an issue where the entry date displayed in the HR-Expert Velocity header did not come from the current employment.
