

Improvements

- [[WD-18686](#)¹] - A new setting was introduced that allows admins to enable or disable the function for acknowledgeable messages on a per-client basis. The option is disabled by default.

Bug Fixes

Display Issues and Visual Behavior

- [[WD-18896](#)²] - In the mobile view of the project time editing form (*po_editTimeEfforts*), active buttons were incorrectly displayed in red.
- [[WD-18898](#)³] - In the mobile view of JournalV2 actions, the "Absence Reason" column was not always displayed correctly.
- [[WD-18760](#)⁴] - In certain evaluations (*ta_getOrgJournal*), the total row was missing in the header in the PDF and print version. It is now displayed correctly again.
- [[WD-17868](#)⁵] - For employees with a future start date for time recording, an endless loading problem occurred in the journal. The display was adjusted to handle such cases reliably.

Technical Errors

- [[WD-18853](#)⁶] - Fixed an error message during cache replication.
- [[WD-18931](#)⁷] - Fixed an error message when opening HRX.
