

4.13.0

Release Notes - Webdesk - August 14, 2020

Bugs

- [[WD-10376](#)¹] - The job ProcessSystemNotifications did not detect irregularities correctly
- [[WD-10639](#)²] - Users in HR-Expert were not displayed in the list of active employees when the employee is currently in a secondary employment
- [[WD-11011](#)³] - Groups could not be created in HR-Expert for clients that use group prefixes
- [[WD-11150](#)⁴] - The HrPersonConnector could not import an IBAN unless the BIC was also imported
- [[WD-11249](#)⁵] - Page numbers were not displayed in HR-Expert reports
- [[WD-11307](#)⁶] - "GROUP BY" could not be used in SQL-based reports
- [[WD-11390](#)⁷] - The JournalV2 did not translate all columns
- [[WD-11413](#)⁸] - The print view in ta_getOrgJournal did not work
- [[WD-11430](#)⁹] - Improved the layout of the Time Tracking tab in HR-Expert
- [[WD-11494](#)¹⁰] - History tracking does not work in ta_getOrgJournal when the interval is only one day
- [[WD-11559](#)¹¹] - Travel types could not be saved when the option "Show cost centers" was changed
- [[WD-11205](#)¹²] - Fixed a display issue where a € was missing in the print view of business trips

New Features

- [[WD-11448](#)¹³] - Added a selection option so that client administrators receive an email as soon as users delete their profile pictures.
- [[WD-11372](#)¹⁴] - New option for ta_CorrectionClient: Absence codes can now be defined; if a day only has these codes, it is not possible to edit accounts for this day

Improvement

- [[WD-10620](#)¹⁵] - The system parameter TmOptions.useFirstTravelTypeAsDefault is now also available at the client level
- [[WD-10642](#)¹⁶] - The job ExecuteAndStoreReports can now filter processes by their status
- [[WD-10823](#)¹⁷] - 30-day trial version clients now have uniform prefixes where possible
- [[WD-10971](#)¹⁸] - The system parameter HrPersonDomainObjectReaderOptions is now also available at the client level
- [[WD-11176](#)¹⁹] - The system parameter Move TmOptions.validateKmBillClashesPerVehicle is now also available at the client level
- [[WD-11199](#)²⁰] - Legislations can now be assigned to multiple clients more easily
- [[WD-11225](#)²¹] - If users do not have permission to edit their profile picture, the profile picture mini icon is not displayed to them either.
- [[WD-11227](#)²²] - Profile pictures can now be managed via the user settings.
