

4.59.4

Release Notes - Webdesk - Version 4.59.4 - March 3, 2025

Improvements

Optimizations in Messaging and Approval Processes

- [[WD-18385](#)¹] - The type of reminders in the journal approval process (email, workflow to-do, or both) can now be configured.
- [[WD-17738](#)²] - The region names in the daily deductions are now translated correctly.

Bug Fixes

Bug Fixes in Journal and Absence Modules

- [[WD-16977](#)³] - The user experience for time entry in the mobile correction client was improved to prevent the time picker from closing unexpectedly.
- [[WD-18082](#)⁴] - Manually added comments in the correction client are now correctly included in the total number of comments.
- [[WD-18388](#)⁵] - Fixed an exception when opening the group calendar.
- [[WD-18389](#)⁶] - Comments in the day view mode of the correction client are now displayed correctly.
- [[WD-18390](#)⁷] - The attendance tableau can now also be opened without a GW license.
- [[WD-18392](#)⁸] - Removed an incorrect message in the journal approval popup.
- [[WD-18404](#)⁹] - Journal V2 no longer adds an additional hour when the account is negative.
