

Bug Fixes

VAT

- [[WD-18257](#)¹] - Values in VAT input fields can no longer be edited in read-only mode.
- [[WD-18223](#)²] - Values in VAT fields are no longer changed unexpectedly when leaving the field if separators are used.
- [[WD-18266](#)³] - Selecting a VAT rate is now also possible for the new single VAT component.

General Bug Fixes

- [[WD-18512](#)⁴] - Added missing text modules.
- [[WD-18407](#)⁵] - The fixed header row in Journal V2 is no longer overlapped by data underneath.
- [[WD-18386](#)⁶] - When opening the workflow list as "sadmin", no exception occurs anymore in the server logs.
