

Bug Fixes

Repository and Connector Management

- [[WD-18557](#)¹] - Editing of Summarize connectors was no longer possible. The configurations could not be edited.
- [[WD-18401](#)²] - The default connection in repositories could not be changed.
- [[WD-18410](#)³] - Changing the password for a created repository was not possible.
- [[WD-18537](#)⁴] - Refreshing pages for new CMIS repositories failed.

Absence Management

- [[WD-18553](#)⁵] - Fixed an error message when opening "Details" of a vacation request in the workflow due to a missing calculation of vacation usage.

Group Calendar

- [[WD-18506](#)⁶] - Fixed an error when clicking on absences in the group calendar due to a missing GW license.

Message Editor

- [[WD-18558](#)⁷] - Fixed an error message when opening the message editor due to multiple entries in the recipient list for approvable messages.
