

Bug

- [[WD-6040](#)¹] - searchPerson shows a list but some Persons can not be open NullPointerException
- [[WD-6127](#)²] - Changed foldernames or document names in tab "Documents" must be stored during "Save"
- [[WD-6335](#)³] - ta_correctionClient layout improvement
- [[WD-6430](#)⁴] - po_manageFileTransfers: date is not autocompleted
- [[WD-6455](#)⁵] - UI needs to state the entitlement date: planned vacation days are zero although having approved days that year
- [[WD-6542](#)⁶] - NonUniqueObjectException when trying to save a person that has a HrPersonJob relation
- [[WD-6589](#)⁷] - Roles not shown in personalized full system administrator
- [[WD-6623](#)⁸] - Switching from Responsive to Classic Skin results in Duplicate Key Exception
- [[WD-6660](#)⁹] - Icon and buttons of reference-chooser should be middle-aligned, but are top-aligned
- [[WD-6661](#)¹⁰] - Row heights of relation tables differ
- [[WD-6700](#)¹¹] - Appraisal Interview: Employee got manager email
- [[WD-6701](#)¹²] - Appraisal Interview: When adding activities as employee getting exception
- [[WD-6705](#)¹³] - Business layer leaves relation-objects that have null UID in graph after save
- [[WD-6714](#)¹⁴] - Saving with an unfinished relation row leads to business exception
- [[WD-6742](#)¹⁵] - List of events can not be exported due to missing export buttons
- [[WD-6768](#)¹⁶] - Personal Full System Admin can't see roles where hide from local admin is activated
- [[WD-6771](#)¹⁷] - po_setup client validation error
- [[WD-6773](#)¹⁸] - Regression in Assign Daily Right: Distance between label and value too big
- [[WD-6787](#)¹⁹] - Duplicate error markers in group reference-chooser when creating a new person
- [[WD-6788](#)²⁰] - Error marker doesn't disappear immediately from reference-chooser when an entity was chosen
- [[WD-6812](#)²¹] - HRX: "Married-From" date is automatically set to the person's date-of-birth by "Save"
- [[WD-6815](#)²²] - Deletion of group also deletes group permissions on root group in orgtree
- [[WD-6816](#)²³] - Set ta id of persons as personell full system administrator
- [[WD-6833](#)²⁴] - Regression: Login to javamelody monitoring not possible
- [[WD-6837](#)²⁵] - Importing configuration from webdesk on https fails without any error message
- [[WD-6842](#)²⁶] - IllegalStateException due to missing dynamicFields property when trying to open HR-Expert with MS-SQL database
- [[WD-6843](#)²⁷] - Save&Close does not return to list of persons, Save&New does not open new fresh UI
- [[WD-6855](#)²⁸] - Regression: Update of documents doesn't show a dialog anylonger
- [[WD-6857](#)²⁹] - Filtering doesn't work in show repositories action
- [[WD-6860](#)³⁰] - PoExecuteAndStoreReports: forking to more than 1 processors causes empty pdfs that can not be deleted
- [[WD-6861](#)³¹] - hrd: New Ticket

- [[WD-6871](#)³²] - Opening an existing salary position row in HRX Person editor results in ReadOnlyException
- [[WD-6872](#)³³] - System Messages are created twice if you click twice on the Save Button
- [[WD-6876](#)³⁴] - Default salary code selector in HR module client options displays public key-values only
- [[WD-6883](#)³⁵] - Person cannot open his/her own travel folders, gets permission error instead
- [[WD-6884](#)³⁶] - Excel Export: Separator wrong
- [[WD-6942](#)³⁷] - Regression: first column too narrow in ps_editSalaryAccounting.act
- [[WD-6945](#)³⁸] - In Tm-Travel Abrechnungsdefinition wurde das Verhalten von "Bis Inkl" geändert

Improvement

- [[WD-5446](#)³⁹] - Webdesk and TACon installers have old logos
- [[WD-5519](#)⁴⁰] - ta_getOrgAccounts: sum table way too wide (responsive)
- [[WD-5930](#)⁴¹] - Improve Logging in PoExecuteAndStoreReports Job
- [[WD-6201](#)⁴²] - Layouting / CSS issues with CForms
- [[WD-6325](#)⁴³] - Unacceptable long loading time for "wf_getMyFinishedTodos"
- [[WD-6340](#)⁴⁴] - Enable versioning functionality for BIRT reports upload
- [[WD-6422](#)⁴⁵] - HR Expert: Improve sorting by date of Birthday list
- [[WD-6534](#)⁴⁶] - ta_showPersonalData need configuration to turn off H (hours) or D (days) unit postfix
- [[WD-6560](#)⁴⁷] - Delete person-related Data in the TA-Module
- [[WD-6617](#)⁴⁸] - Customizable salutatory address on Welcome Page (show/hide first name)
- [[WD-6635](#)⁴⁹] - JSON Rest endpoint for projects
- [[WD-6636](#)⁵⁰] - Allow assignment of photos to projects
- [[WD-6651](#)⁵¹] - Change in "Entry Date" field is dismissed on "Save"
- [[WD-6676](#)⁵²] - The own Logo disappears on welcome page
- [[WD-6693](#)⁵³] - Date chooser mini calendar should visually indicate today date
- [[WD-6697](#)⁵⁴] - Appraisal Interview: Check email before starting Appraisal Interview
- [[WD-6698](#)⁵⁵] - Appraisal Interview: Do not generate report when already exists
- [[WD-6702](#)⁵⁶] - Can not delete certain relations between location and person
- [[WD-6781](#)⁵⁷] - "Terminate Employment" button should be unavailable as soon as there is a scheduled termination
- [[WD-6784](#)⁵⁸] - HRX dashboard panel hints / tooltips
- [[WD-6791](#)⁵⁹] - Research how to incrust images in BIRT reports to export person images in ExportAllPersonalData report
- [[WD-6792](#)⁶⁰] - Maximum width for edit-column in SDLs
- [[WD-6795](#)⁶¹] - Provide icons for EVM actions
- [[WD-6806](#)⁶²] - Display Photo of the current person
- [[WD-6809](#)⁶³] - NFC Tag Setup (Hardware)
- [[WD-6811](#)⁶⁴] - Create a configured action for the GDPR Export report
- [[WD-6827](#)⁶⁵] - Fix layout in Process Definition Settings action (Responsive skin)

New Feature

- [[WD-6610](#)⁶⁶] - Add an "Unsupported Viewport" configuration possibility to Webdesk actions, to optionally exclude it from rendering
- [[WD-6759](#)⁶⁷] - Create TM data provider for PDF export of personal data
- [[WD-6760](#)⁶⁸] - Create PTM data provider for PDF export of personal data
- [[WD-6761](#)⁶⁹] - Create RS data provider for PDF export of personal data
- [[WD-6762](#)⁷⁰] - Create PO data provider for PDF export of personal data (Log, LoginAttempts)
- [[WD-6763](#)⁷¹] - Create WF data provider for PDF export of personal data
- [[WD-6766](#)⁷²] - Selection Menu for Tables

Task

- [[WD-6043](#)⁷³] - Installer needs our new logo
- [[WD-6367](#)⁷⁴] - Start / Stop Effort
- [[WD-6622](#)⁷⁵] - Setup Update Script for Smoke Test Server
- [[WD-6741](#)⁷⁶] - Remove legacy code of old Change-Password page
- [[WD-6777](#)⁷⁷] - Event Manager Assistant make work in Responsive
- [[WD-6799](#)⁷⁸] - Upgrade Selenium to Version 3
