

R3.7.16

The following is a list of tickets exported from our release management system Jira and assigned to the release described:

Bug

- [[WD-1674](#)¹] - Request equipment / cost center is ignored (auto-complete broken)
- [[WD-1817](#)²] - Additional fields are missing when automatically adding a record from the travel request to the travel expense

Improvement

- [[WD-1734](#)³] - Webservice that returns an autocomplete-label for an entity-UID
- [[WD-2146](#)⁴] - EVM: new field "Reference" in the event assistant, change label of the "Cost center" field
- [[WD-2148](#)⁵] - EVM: Extend the Planon interface with the field "Reference"
- [[WD-2149](#)⁶] - EVM: Output of the field "Reference" in various emails (daily sheet and others)
- [[WD-2150](#)⁷] - EVM: In equipment rental, show cost center long name, change label, add field "Reference"
- [[WD-2151](#)⁸] - EVM: New column "Reference" in the equipment report
- [[WD-2178](#)⁹] - Ease possibility to override EhCache Settings for certain Caches

New Feature

- [[WD-2145](#)¹⁰] - EVM: Show the long name of the respective selected cost center to the right of the "Cost center" selection field
