

Bug Fixes

- [[WD-17691](#)¹] - Fix for an issue in the display of the personal event overview that was caused by an XSS vulnerability in the Velocity scripting of the action
- [[WD-17348](#)²] - Fix for an issue that occurred when upgrading Webdesk to version 4.58.3 using script v118 and blocked the upgrade
- [[WD-17547](#)³] - Fix for an issue that prevented the display of the presence/absence status of users in the group calendar as soon as a person from the displayed group calendar view could not be found in O365 and their status therefore could not be determined
- [[WD-17635](#)⁴] - Fix for an issue that resulted in the incorrect display of special characters in the column headings of reports based on the actions ta_getOrgJournal and ta_getJournalV2
- [[WD-17672](#)⁵] - Fix for an issue in the display of data of former employees in the Correction Client that was caused by a cache problem when synchronizing the data with the underlying database
- [[WD-17705](#)⁶] - Fix for a graphics issue with the search buttons in the "My Upcoming Events" view
- [[WD-17709](#)⁷] - Fix for an issue in the action for resetting all passwords that prevented this action from being executed
- [[WD-17527](#)⁸] - Fix for an issue that occurred when creating a new person and caused the automatically suggested employee number to match employee numbers that were already in use
- [[WD-17549](#)⁹] - Fix for an issue that blocked the reassignment to other persons of email addresses that had been stored for persons who have since been deleted
- [[WD-17671](#)¹⁰] - The heading of the page for new or edited system messages was changed from "Systemnachricht" to "Systemmeldung" (both translate to "System Message")
- [[WD-17704](#)¹¹] - Fix for an issue in the graphical display of the column widths of the group list after entries had previously been made in a travel expense report

Improvement

- [[WD-17084](#)¹²] - The icon for displaying the Home Office status in the attendance list was changed. The new icon shows a computer screen with a keyboard.
