

4.57.6

Release Notes - Webdesk - Version 4.57.6 - May 22, 2024

Bug Fix

- [[WD-16191](#)¹] - Fix for an issue in the travel expense report area that occurred when 0:00 was used as the return time for trips abroad and caused the expenses listed for the return day to also be added to every travel day before it

Improvements

- [[WD-16958](#)²] - In the interest of diversity management, the salutation as part of addressing persons was removed from the HR Expert report "Employee List".
- [[WD-16814](#)³] - A user-specific configuration was created that allows certain users to change the naming convention of target folders for the exported documents before the export.
- [[WD-16940](#)⁴] - The connectors SeperatorFileConnector and TemplateFileConnector can now (when used as a data target) send the files they create directly to REST endpoints.
