

4.56.3

Release Notes - Webdesk - Version 4.56.3 - March 8, 2024

Bug Fix

- [[WD-16702](#)¹] - Fix for an issue in the action `ta_getOrgJournal` that caused the application of filters in the search form not to work properly
- [[WD-16593](#)²] - Fix for an issue that caused an error message as soon as persons were queried in the attendance journal who were absent due to a previously hidden absence reason
- [[WD-16694](#)³] - Fix for an issue in Personalwolke Travel that occurred in the action `tm_editKmBillingDef` and caused autocomplete of trip types to fail
- [[WD-16752](#)⁴] - Fix for an issue in the payroll area that caused the admin role to be ignored in the action `ps_editSalaryAccounting`
- [[WD-16749](#)⁵] - Fix for an issue in JavaScript caused by a non-thread-safe local variable in `PoConnectorSyncServiceImpl` .

Improvement

- [[WD-16691](#)⁶] - The default visibility setting when creating a new Alfresco page is now "private".
