

Contact infos

This tab contains various subtabs.

NOTIZ

Important: Please note [Time limitation and Historisation](#)¹ so that you achieve the expected effectiveness and historisation!

Phone and E-Mail

In this area, *private* and *business* telephone numbers and email addresses can be maintained.

Please note that the **business email address** of the employee is used by the system for all notification functions. Also a [Login](#)¹ with the **business** email address (instead of the user name) into the Personalwolke is possible, if the employee is an active user.

The telephone numbers maintained here can also be displayed in other views (especially the [Attendance list](#)² in time recording) if this has been configured by the administrator.

The recommended **input form** for this feature is +43 xxx xxxxxxxxxxxx

When using a smartphone, you can click on the phone number to copy it to the phone's call function and make a phone call by pressing the dial function.

Private addresses

Street	Zip code	City	Country	Valid from	Valid till
Wienerstraße 21	3002	Purkersdorf	Austria	30.11.2022	01.01.3000

Street	Zip code	City	Country	Valid from	Valid till
--------	----------	------	---------	------------	------------

In this section, **one or more private residential addresses** are entered and stored in a history.

Only one address can be marked as the **primary (registered) address** at any time. As soon as a new address is assigned to this attribute, HR-Expert automatically corrects the "Valid to" field of the address previously marked as primary.

The address is required for social security registration, or for any form of contract. The private address of the employee is also helpful for the coordination of any activity outside the company.

A **correspondence address** can be interesting if the employee is staying at a different address for a longer period of time, but is not registered there. An example of this could be that the tradesmen have to carry out a longer repair at the registration address.

Below the entry screen, the active residential addresses are displayed, including all entries whose validity has expired.

On this screen there are the two system buttons "New" for entering a new address and "Delete line" to remove an entry from the list.

Business address

Synchronize Office Address with Location

Office street address: Wagenseilgasse 14

Office ZIP code: 1120

Office city: Wien

Office country:

In this area, you maintain the current business address (employer's address / current usage site or office address). The address is required for the social insurance registration.

If you check the **Synchronize with assigned location** checkbox, HR-Expert enters the stored address (for the location). The prerequisite for this is an assignment to a location in the [Tab Organisation - Groups](#)¹ Organization - Groups tab, if these have been configured.

(In the example shown above the synchronize-feature is used. The address field is grayed, a changing of the address is only possible if the location addressed is changed or via de-synchronization.)
