PTM - System Settings

Webdesk EWP provides various additional tools for further configuration and automation as well as for importing and exporting large amounts of data to and from the system:

- **System Parameters**
  System parameters are settings that affect the basic behavior of Webdesk. Some parameters are fixed settings, while others can be overwritten by user-client or person-specific settings.
  --> zu den verfügbaren Systemparametern in der Projektzeiterfassung[1]
  --> weitere, allgemeine Informationen zu Systemparametern[2]
- **Jobs**
  Jobs serve as periodically running auxiliary programs for synchronizing and processing data. Jobs can be started automatically with the help of a so-called trigger, which can be set e.g. daily, weekly, etc...
  --> zu den Jobs in der Projektzeiterfassung

[3] --> weitere, allgemeine Informationen zu Jobs[4]

- **Connectors**
  The connectors provide a framework for the import and export of data to and from webdesk.
  --> zu den Konnektoren in der Projektzeiterfassung
  [5] --> weitere, allgemeine Informationen zu Konnektoren[6]
