

## 4.2.5

### Bug

- [[WD-7347](#)<sup>1</sup>] - PtmStopAndContinueEfforts: job terminates abnormally due to too many persons in the system (>2100)
- [[WD-8255](#)<sup>2</sup>] - Travel expenses are wrong calculated when record with foreign currency is paid by company
- [[WD-8401](#)<sup>3</sup>] - If the Android Device ID is unfilled it should be null instead of an empty string which creates uniqueness false alerts
- [[WD-8429](#)<sup>4</sup>] - Kiosk falsely does not show a manually inserted effort as the last effort
- [[WD-8458](#)<sup>5</sup>] - Valid from has to be before valid to
- [[WD-8460](#)<sup>6</sup>] - "id to load is required for loading" exception after deleting person and selecting date
- [[WD-8487](#)<sup>7</sup>] - Process filter for sadmin not working any more
- [[WD-8491](#)<sup>8</sup>] - Roles can not be deleted in hr-expert
- [[WD-8511](#)<sup>9</sup>] - Regression: Filter buttons not working in editCurrency
- [[WD-8578](#)<sup>10</sup>] - Kiosk deletion fails because of missing delete log
- [[WD-8579](#)<sup>11</sup>] - Trashbin: Kiosk restoration fails with NPE
- [[WD-8630](#)<sup>12</sup>] - Assigned requests- empty table after refresh
- [[WD-8637](#)<sup>13</sup>] - Regression: workflowlists throw exceptions in context of sadmin
- [[WD-8645](#)<sup>14</sup>] - WebpackConfig -> need to export multiple configs in webclient project
- [[WD-8652](#)<sup>15</sup>] - Person falsely still kiosk admin after removal from "All Kiosk Administrators"
- [[WD-8668](#)<sup>16</sup>] - "Incorrect result size" when changing kiosk device ID

### New Feature

- [[WD-7440](#)<sup>17</sup>] - New Interface for monthly project time booking in %
- [[WD-8185](#)<sup>18</sup>] - When starting a new booking delete any immediately preceding bookings with less than 0min as unintentional
- [[WD-8539](#)<sup>19</sup>] - Monthly project % time booking - Project picker

### Task

- [[WD-8580](#)<sup>20</sup>] - Make sure existing webdesk.properties ClusterConfigs (RMI) continue working without manual reconfiguration

### Improvement

- [[WD-8254](#)<sup>21</sup>] - Possibility to assign multiple kiosk admins
- [[WD-8378](#)<sup>22</sup>] - Android Device ID of deleted kiosks shall be excluded from uniqueness check
- [[WD-8453](#)<sup>23</sup>] - Clean up JMS properties in webdesk.properties
- [[WD-8499](#)<sup>24</sup>] - Add Serializable interface to cached objects
