

Job processSystemNotifications

Die Funktion des Jobs Process System Notifications besteht in der

The screenshot shows a web-based configuration interface for a job. At the top, there is a header with a clock icon and the word 'Job'. Below this is a toolbar with four buttons: 'Speichern' (Save), 'Speichern & Schließen' (Save & Close), 'Zurück' (Back), and 'Job starten' (Start Job). The main configuration area has three fields: 'Name' with the value 'processSystemNotifications', 'Aktiv' (Active) with a dropdown menu set to 'Nein' (No), and 'Beschreibung' (Description) with a text area containing 'creates various System Notifications'. Below this is a 'Trigger' section with a tabbed interface. The 'Zeitplan Typ' (Schedule Type) tab is active, showing 'Keine Trigger zugeordnet' (No triggers assigned). There are buttons for 'Einstellungen' (Settings) and 'Löschen' (Delete). A 'Neuer Trigger' (New Trigger) button is also present, followed by a dropdown menu currently set to 'Nichts gewählt' (Nothing selected).

Eine detaillierte Beschreibung zu den allgemeinen Job-Parametern finden Sie im Kapitel **Jobs**.
