

Job Start Connector Link Sync

TODO

Mit der "Hinzufügen"-Schaltfläche werden die Konnektoren für die Synchronisation definiert:

The screenshot shows a web-based configuration interface for a job. At the top, there is a header with a clock icon and the word "Job". Below this is a navigation bar with buttons: "Speichern", "Speichern & Schließen", "Zurück", "Job starten", and "Löschen". The main form area contains several fields: "Name" with the value "ImportStammdatenAusIF6020", "Aktiv" with a dropdown set to "Nein", and "Beschreibung" which is empty. A label "Jobkonfiguration abgeleitet von Job" is followed by a dropdown menu showing "startConnectorLinkSync". Below these fields are three tabs: "Trigger", "Mailversand", and "Jobkonfiguration". The "Jobkonfiguration" tab is active and shows a table with two rows. The first row has "Gruppenconnector" in the "Name" column and a red "X" icon in the "Löschen" column. The second row has "Personenconnector" in the "Name" column and a red "X" icon in the "Löschen" column. At the bottom of the tab is a button labeled "Hinzufügen".
