- [[WD-7007](#)<sup>8</sup>] - LazyInitializationException after saving a change on tab "Roles" in HR person editor
- [[WD-7013](#)<sup>9</sup>] - Pluggable role-tab does not report its "dirty" state correctly
- [[WD-7018](#)<sup>10</sup>] - Make ptm\_approveTimeEfforts.act responsive and adress various issues
- [[WD-7083](#)<sup>11</sup>] - Success message for starting social security registration needs translation
- [[WD-7097](#)<sup>12</sup>] - Correct time ranges for day specific welcome messages on welcome page
- [[WD-7173](#)<sup>13</sup>] - Error message appears when rightclicking at monthly journal print view
- [[WD-7180](#)<sup>14</sup>] - Field should stay inside the column
- [[WD-7181](#)<sup>15</sup>] - Validation text destroys UI
- [[WD-7184](#)<sup>16</sup>] - NPE when no ressource is available
- [[WD-7187](#)<sup>17</sup>] - Former private address is highlighted but details are not displayed
- [[WD-7215](#)<sup>18</sup>] - ExecuteAndSendReports-Job sends empty Excel-Files
- [[WD-7226](#)<sup>19</sup>] - No routes are shown for KM allowance in the travel detail view, if geocomplete is used
- [[WD-7227](#)<sup>20</sup>] - Printview sorts absence reasons wrong in ta\_getJournal
- [[WD-7250](#)<sup>21</sup>] - weekly productivity report is sent as corrupt pdf file
- [[WD-7261](#)<sup>22</sup>] - PTM: Rejected bookings must be highlighted in color
- [[WD-7267](#)<sup>23</sup>] - Edit travel folder: When I choose a date with a datepicker sometimes I get a validation error
- [[WD-7276](#)<sup>24</sup>] - Missing color for "declined" time-effort-records in responsive skin
- [[WD-7293](#)<sup>25</sup>] - Avoid 2 users logged into Webdesk in the same browser
- [[WD-7303](#)<sup>26</sup>] - NoSuchBeanDefinitionException when using ptm\_doProjectBooking without a TA module present
- [[WD-7309](#)<sup>27</sup>] - Webdesk not starting when PTM module is not present
- [[WD-7314](#)<sup>28</sup>] - Stopwatch for doProjectTimeBooking is installed on previous action!
- [[WD-7318](#)<sup>29</sup>] - Selecting a client in Organigram view in HRX results in exception
- [[WD-7323](#)<sup>30</sup>] - Assigning a new location to an existing person causes UnsupportedOperationException
- [[WD-7324](#)<sup>31</sup>] - ExecuteAndSendReports-Job sends broken PDF Files
- [[WD-7326](#)<sup>32</sup>] - Webdesk Person Administration does not work without TA JARs being licenced.
- [[WD-7327](#)<sup>33</sup>] - Lost systemparameters after updating to WD 4.0.31

- [[WD-7330](#)<sup>34</sup>] - Expiry date in licences not working
- [[WD-7340](#)<sup>35</sup>] - Regression: Tree-Table grouping layout broken
- [[WD-7369](#)<sup>36</sup>] - Regression: missing i18n in orgactionhandler pager
- [[WD-7397](#)<sup>37</sup>] - "Request Approval" button is enabled when navigating to a month after the latest approvable month

## Improvement

- [[WD-5259](#)<sup>38</sup>] - Non-telling button label "Daily Accounting" in Person's TA tab
- [[WD-6840](#)<sup>39</sup>] - Technical licence for HRX Ta-Connector integration
- [[WD-6912](#)<sup>40</sup>] - Associating a Kiosk Terminal to a specific client / location / org-unit
- [[WD-6947](#)<sup>41</sup>] - Make pseudonymization configurable
- [[WD-6963](#)<sup>42</sup>] - The TA-Ids of inactive persons sometimes collide with newly generated TA-Ids from IF-6020
- [[WD-7001](#)<sup>43</sup>] - Make "Reassign" in wf list open todos available for local administrators (and personalized full system admins)
- [[WD-7162](#)<sup>44</sup>] - Improve styling of upload widget when it contains an validation error in responsive skin
- [[WD-7177](#)<sup>45</sup>] - Folder explorer (Mobile): folder and file icons going over labels
- [[WD-7259](#)<sup>46</sup>] - Refactor executeAndStoreReports and executeAndSendReports to extract common functionality
- [[WD-7262](#)<sup>47</sup>] - Make an option to allow collection of Geo-location in system parameters
- [[WD-7280](#)<sup>48</sup>] - Implement NFC tag assignment policy following the latest proposal

## New Feature

- [[WD-7037](#)<sup>49</sup>] - Custom Job: Defining Big and small Daily allowance
- [[WD-7169](#)<sup>50</sup>] - Edit bean properties: Add new system property to allow to create Jira Tickets from Webdesk
- [[WD-7336](#)<sup>51</sup>] - When using ptm\_editTimeEfforts action in a system without TA, the attendance columns are not shown

## Task

- [[WD-7141](#)<sup>52</sup>] - Refactor implementations around use case "Clear TA-Id when person gets inactive"
- [[WD-7252](#)<sup>53</sup>] - Make function calculateAndAdjustContentWidths() in tableLayout.js be a construction parameter, and use its current implementation as fallback
- [[WD-7279](#)<sup>54</sup>] - Move HRD from incubator to products
- [[WD-7313](#)<sup>55</sup>] - Provide skin agnostic selectors for selenium tests
