

### Improvement

- [WD-5646<sup>1</sup>] - Improve Usability in Time Attendance-tab of po\_editPerson.act
- [WD-5931<sup>2</sup>] - Performance improvement of Project Time Report
- [WD-6202<sup>3</sup>] - Menutree templates view in editMenuTree needs side-by-side panel
- [WD-6309<sup>4</sup>] - Menu Tree Maintenance - After adding an action link from the chooser give clearer followup choice
- [WD-6331<sup>5</sup>] - CSV-Export of complete Salary components table
- [WD-6411<sup>6</sup>] - executeAndStoreReports: export file attachments
- [WD-6421<sup>7</sup>] - HRX Dashboard: Make a description for "Abwesenheitsrate"
- [WD-6500<sup>8</sup>] - Validation error marker should disappear as soon as the user fixed the invalid field
- [WD-6582<sup>9</sup>] - Refresh PTM and Time Mobile booking page when app is awaken from background.
- [WD-6654<sup>10</sup>] - sadmin change password success message should not display the stored value
- [WD-6682<sup>11</sup>] - Refresh WF Mobile Assigned Requests on app wakeup

### New Feature

- [WD-72<sup>12</sup>] - Integrate ChangeLog-Interceptor into Webdesk
- [WD-257<sup>13</sup>] - Berechnung Auslandsdienstreisen für DE
- [WD-6570<sup>14</sup>] - Tabbed Pane transforms from single row to multi row when viewport width requires it
- [WD-6615<sup>15</sup>] - Change behaviour of password bean properties in system parameters action

### Bug

- [WD-5522<sup>16</sup>] - Controls in connector preview are messed up in responsive skin
- [WD-5907<sup>17</sup>] - Fix responsive skin in action: separatorFileConnector
- [WD-5964<sup>18</sup>] - Rescheduling: check boxes get not checked when editing an existing planning
- [WD-6079<sup>19</sup>] - In Rescheduling Planning UI today should always be focused
- [WD-6105<sup>20</sup>] - Field order in rescheduling mask is completely mixed up
- [WD-6180<sup>21</sup>] - Sub projects are not synchronized between servers in our Live system
- [WD-6339<sup>22</sup>] - Buttons without appropriate styling classes in "Report Definition" in tab "Report designs"
- [WD-6428<sup>23</sup>] - Favorite Panel missing in Responsive Skin and wrong buttons in Favorite Management
- [WD-6459<sup>24</sup>] - TravelExpense: estimated km via geocomplete plugin not working
- [WD-6479<sup>25</sup>] - Address validation: wrong validation error when opening draft travel
- [WD-6513<sup>26</sup>] - Validation shows duplicate message on HRX person editor's Terminations' tab
- [WD-6522<sup>27</sup>] - Travel expense: Submission in IE11 leaves UI frozen but backend receives submission properly
- [WD-6536<sup>28</sup>] - Fatal problems with wf\_getOrgProcessInstances configurations
- [WD-6546<sup>29</sup>] - Opening a person in Webdesk Admin saves (!) x other persons behind the scenes
- [WD-6561<sup>30</sup>] - Long project master data description causes an exception

- [WD-6565<sup>31</sup>] - Root Folder Path for a new configuration is not validated and not testable
- [WD-6580<sup>32</sup>] - Login not possible with Umlaute in username or password
- [WD-6583<sup>33</sup>] - Document Structure cannot be created at fresh installed Alfresco
- [WD-6590<sup>34</sup>] - Flawed UI rendering in the Attachment Panel in processes that set daily rights
- [WD-6602<sup>35</sup>] - Rescheduling: show weekends in responsive skin
- [WD-6633<sup>36</sup>] - Import of artifacts is not working because of wrong import of AuditLog field
- [WD-6639<sup>37</sup>] - Import of PoConnectorLink configuration is not working because UIDs are imported
- [WD-6644<sup>38</sup>] - Forced sadmin password change makes NULL Pointer error
- [WD-6645<sup>39</sup>] - Deleting of a today created person causes an NP Exception
- [WD-6648<sup>40</sup>] - Correct equals() implementation in AbstractPersistentObject to integrate the class name
- [WD-6650<sup>41</sup>] - Edit time efforts: when adding a new effort comment field will not autoresize on typing
- [WD-6656<sup>42</sup>] - Error in update script v158 (prepare.xml)
- [WD-6663<sup>43</sup>] - Back Button does not work when opening embedded journal
- [WD-6675<sup>44</sup>] - Technical Review with Jozef
- [WD-6689<sup>45</sup>] - Regression: encrypted beanproperties are injected encrypted.
- [WD-6745<sup>46</sup>] - Rendering error in activities after auto-refresh in PTM stop-watch

## Task

- [WD-6362<sup>47</sup>] - Add Fake possibility to switch to other Users
- [WD-6605<sup>48</sup>] - Transform KIOSK-APP code to use Typescript
- [WD-6606<sup>49</sup>] - Functional Review with Gabriel
- [WD-6612<sup>50</sup>] - Change in whole webdesk picture icons to use icon service
- [WD-6643<sup>51</sup>] - Update Personalwolke Test Server to 4.0.25
