

Bug

- [[WD-6659](#)¹] - Define language of TaInformAboutEvents Job
- [[WD-6829](#)²] - Can not delete a marital state
- [[WD-6914](#)³] - Add a loading sign for the Kiosk-app
- [[WD-6927](#)⁴] - Bulk Social Security Registration causes a NullPointerException
- [[WD-6965](#)⁵] - HR-Expert: Report Ein/Austrittsliste not working
- [[WD-6970](#)⁶] - Fix for error message in HrPersonConnector
- [[WD-6971](#)⁷] - Fix difference in loading icons for search fields
- [[WD-7007](#)⁸] - LazyInitializationException after saving a change on tab "Roles" in HR person editor
- [[WD-7013](#)⁹] - Pluggable role-tab does not report its "dirty" state correctly
- [[WD-7018](#)¹⁰] - Make ptm_approveTimeEfforts.act responsive and adress various issues
- [[WD-7083](#)¹¹] - Success message for starting social security registration needs translation
- [[WD-7097](#)¹²] - Correct time ranges for day specific welcome messages on welcome page
- [[WD-7173](#)¹³] - Error message appears when rightclicking at monthly journal print view
- [[WD-7180](#)¹⁴] - Field should stay inside the column
- [[WD-7181](#)¹⁵] - Validation text destroys UI
- [[WD-7184](#)¹⁶] - NPE when no ressource is available
- [[WD-7187](#)¹⁷] - Former private address is highlighted but details are not displayed
- [[WD-7215](#)¹⁸] - ExecuteAndSendReports-Job sends empty Excel-Files
- [[WD-7226](#)¹⁹] - No routes are shown for KM allowance in the travel detail view, if geocomplete is used
- [[WD-7227](#)²⁰] - Printview sorts absence reasons wrong in ta_getJournal
- [[WD-7250](#)²¹] - weekly productivity report is sent as corrupt pdf file
- [[WD-7261](#)²²] - PTM: Rejected bookings must be highlighted in color
- [[WD-7267](#)²³] - Edit travel folder: When I choose a date with a datepicker sometimes I get a validation error
- [[WD-7276](#)²⁴] - Missing color for "declined" time-effort-records in responsive skin
- [[WD-7293](#)²⁵] - Avoid 2 users logged into Webdesk in the same browser
- [[WD-7303](#)²⁶] - NoSuchBeanDefinitionException when using ptm_doProjectBooking without a TA module present
- [[WD-7309](#)²⁷] - Webdesk not starting when PTM module is not present
- [[WD-7314](#)²⁸] - Stopwatch for doProjectTimeBooking is installed on previous action!
- [[WD-7318](#)²⁹] - Selecting a client in Organigram view in HRX results in exception
- [[WD-7323](#)³⁰] - Assigning a new location to an existing person causes UnsupportedOperationException
- [[WD-7324](#)³¹] - ExecuteAndSendReports-Job sends broken PDF Files
- [[WD-7326](#)³²] - Webdesk Person Administration does not work without TA JARs being licenced.
- [[WD-7327](#)³³] - Lost systemparameters after updating to WD 4.0.31
- [[WD-7330](#)³⁴] - Expiry date in licences not working

- [[WD-7340](#)³⁵] - Regression: Tree-Table grouping layout broken
- [[WD-7369](#)³⁶] - Regression: missing i18n in orgactionhandler pager
- [[WD-7397](#)³⁷] - "Request Approval" button is enabled when navigating to a month after the latest approvable month

Improvement

- [[WD-5259](#)³⁸] - Non-telling button label "Daily Accounting" in Person's TA tab
- [[WD-6840](#)³⁹] - Technical licence for HRX Ta-Connector integration
- [[WD-6912](#)⁴⁰] - Associating a Kiosk Terminal to a specific client / location / org-unit
- [[WD-6947](#)⁴¹] - Make pseudonymization configurable
- [[WD-6963](#)⁴²] - The TA-Ids of inactive persons sometimes collide with newly generated TA-Ids from IF-6020
- [[WD-7001](#)⁴³] - Make "Reassign" in wf list open todos available for local administrators (and personalized full system admins)
- [[WD-7162](#)⁴⁴] - Improve styling of upload widget when it contains an validation error in responsive skin
- [[WD-7177](#)⁴⁵] - Folder explorer (Mobile): folder and file icons going over labels
- [[WD-7259](#)⁴⁶] - Refactor executeAndStoreReports and executeAndSendReports to extract common functionality
- [[WD-7262](#)⁴⁷] - Make an option to allow collection of Geo-location in system parameters
- [[WD-7280](#)⁴⁸] - Implement NFC tag assignment policy following the latest proposal

New Feature

- [[WD-7037](#)⁴⁹] - Custom Job: Defining Big and small Daily allowance
- [[WD-7169](#)⁵⁰] - Edit bean properties: Add new system property to allow to create Jira Tickets from Webdesk
- [[WD-7336](#)⁵¹] - When using ptm_editTimeEfforts action in a system without TA, the attendance columns are not shown

Task

- [[WD-7141](#)⁵²] - Refactor implementations around use case "Clear TA-Id when person gets inactive"
- [[WD-7252](#)⁵³] - Make function calculateAndAdjustContentWidths() in tableLayout.js be a construction parameter, and use its current implementation as fallback
- [[WD-7279](#)⁵⁴] - Move HRD from incubator to products
- [[WD-7313](#)⁵⁵] - Provide skin agnostic selectors for selenium tests
