

Bug

- [[WD-1868](#)¹] - EmployeeId generator creates client-specific employeeId, but business-layer validation ignores client
- [[WD-2557](#)²] - Invalid generated employee-ID when creating a new person
- [[WD-4631](#)³] - Excel Export not working in Reisen meiner Mitarbeiter
- [[WD-5372](#)⁴] - Duplicate actions in response of "/rest/po/actionpermissions/listAllowedActions"
- [[WD-5737](#)⁵] - Drag and drop not working in travel expenses
- [[WD-5910](#)⁶] - Cant't change "Valid to" date for currencies: different object with the same identifier ...
- [[WD-6134](#)⁷] - In travel expense the columns need new width in internal webdesk
- [[WD-6510](#)⁸] - buildCustomGroups: no orgstructure available for selection
- [[WD-6541](#)⁹] - Folder Explorer layout in Responsive Skin
- [[WD-6591](#)¹⁰] - BIRT report testing as personalized full system administrator creates exception
- [[WD-6592](#)¹¹] - TravelExpense: daily discounts are initially pre-selected
- [[WD-6593](#)¹²] - TravelExpense: daily discounts not working in multiday travels combined with different accountings for first day / middle part / last day of travel
- [[WD-6607](#)¹³] - Translation for the all texts in the app
- [[WD-6696](#)¹⁴] - When layout group has hidden widgets do not show it
- [[WD-6740](#)¹⁵] - Employee-ID value already used when creating a new person with auto-suggested employee-ID
- [[WD-6743](#)¹⁶] - Future valid person within salary accounting period not correctly handled
- [[WD-6753](#)¹⁷] - All Mobile Apps are stuck on the splashscreen on Iphone devices
- [[WD-6754](#)¹⁸] - PTM description field does not take 100% in classic skin
- [[WD-6796](#)¹⁹] - Sub-Tab selector is too big in responsive skin
- [[WD-6820](#)²⁰] - Extension of TaTimeModelProgram retrieval from Ta-Connector
- [[WD-6834](#)²¹] - Filtering/Sorting in salaryAccounting repeater tables is very slow
- [[WD-6851](#)²²] - NullPointerException in event assistant when selecting more ressources than available
- [[WD-6870](#)²³] - Button labels in date picker are shown in German even if setting is English
- [[WD-6898](#)²⁴] - Leftover of Removal of po_changePassword.act
- [[WD-6904](#)²⁵] - Internet Explorer 11 on Windows Mobile is not supported
- [[WD-6908](#)²⁶] - CSV Export of SalaryComponents uses wrong charset
- [[WD-6915](#)²⁷] - Admin user only should be permitted to login the kiosk-app
- [[WD-6917](#)²⁸] - Document Interfaces in kiosk-app
- [[WD-6937](#)²⁹] - Wagetype administration should not display clients in selectionlist outside of view permissions
- [[WD-6962](#)³⁰] - Update WD 4.0.21 to 4.0.28 fails at update script v175
- [[WD-6966](#)³¹] - executeAndStoreReports is failing with login problems for every user
- [[WD-6973](#)³²] - Welcome: After login user thumbnail is missing in right corner
- [[WD-6988](#)³³] - Regression: Restoring deleted person not working

- [[WD-6994](#)³⁴] - SQL Exception when opening the processes
- [[WD-6995](#)³⁵] - Regression: Not possible to open edit repository action
- [[WD-7000](#)³⁶] - Loading a person fails due to invalid assignments of NFC tags
- [[WD-7002](#)³⁷] - User does not get locked although performing more failed login attempts than defined in `maxNumberOfFailedLoginAttempts`
- [[WD-7022](#)³⁸] - IE: Delete and Save buttons are mixed up in HRX
- [[WD-7023](#)³⁹] - Editing a HR person causes an exception in TA: `IllegalArgumentException`: argument type mismatch, `wpinfo8`
- [[WD-7052](#)⁴⁰] - Manually filled in date in Time Correction Request is displayed false
- [[WD-7072](#)⁴¹] - Salary Accounting Table columns are too narrow
- [[WD-7075](#)⁴²] - Welcome: Can not add a quick note
- [[WD-7115](#)⁴³] - Termination of employees throws exception "Empty or null property expression"

Improvement

- [[WD-5617](#)⁴⁴] - Time corrections into an open booking interval should be possible
- [[WD-6145](#)⁴⁵] - Improvements in `PoPersonConnector` for Bankaccounts
- [[WD-6330](#)⁴⁶] - Add new filter 'hide new entries' in `showDataTransferHistory`
- [[WD-6424](#)⁴⁷] - Currency Exchange Rate - Job Configuration UI improvements
- [[WD-6681](#)⁴⁸] - Time correction in an open booking interval in future
- [[WD-6748](#)⁴⁹] - Kilometer records table column widths need some optimizations
- [[WD-6776](#)⁵⁰] - `ta_assignDailyRight` needs an "today" option for preselection
- [[WD-6804](#)⁵¹] - Unnecessary empty panels in `ta_getMonthList`
- [[WD-6808](#)⁵²] - Provide also `imagepath` to thumbnails in project REST service
- [[WD-6817](#)⁵³] - Setup version comparison based on real version number
- [[WD-6826](#)⁵⁴] - Rest Service: Get users that do and do not have NFC Tags assigned
- [[WD-6909](#)⁵⁵] - Replace usage of `@NotNull` annotation only for UI purposes
- [[WD-6919](#)⁵⁶] - Needed UI changes for `po_showDataTransferHistory.act`
- [[WD-6933](#)⁵⁷] - Selection Menu for Tables (Layout Improvements)
- [[WD-6939](#)⁵⁸] - Block accidental move of persons between clients with `PoPersonconnector`
- [[WD-7001](#)⁵⁹] - Make "Reassign" in wf list open todos available for local administrators (and personalized full system admins)

New Feature

- [[WD-6505](#)⁶⁰] - Better detection of real changes to display confirm-save dialog just when needed
- [[WD-6686](#)⁶¹] - Increase default session duration to possible maximum to avoid user frustration about data-loss
- [[WD-6710](#)⁶²] - Send email when there is too many failed login attempts to sadmin
- [[WD-6893](#)⁶³] - Get all information about a tag using tag's serial number
- [[WD-6894](#)⁶⁴] - Clear a card(serial number) - stop assignment of person-NFCTag
- [[WD-6896](#)⁶⁵] - Service to change any attribute of a card with its serial number

- [[WD-6934](#)⁶⁶] - New parameter for action widget to display only an icon, without border, skin agnostic

Problembericht

- [[WD-5299](#)⁶⁷] - Travel allowance calculations for German clients not correct for abroad travels

Task

- [[WD-6212](#)⁶⁸] - Release Beta Version in Apple App Store using Testflight
- [[WD-6885](#)⁶⁹] - Document the business logic behind a person's employment states, validity begin and entry date
- [[WD-6924](#)⁷⁰] - RZB custom jar file has to be built for 4.0
- [[WD-6943](#)⁷¹] - Make release-script replace the SCM URL in branched version
- [[WD-6967](#)⁷²] - Fix broken Selenium tests
