

## New Features

|                                      |                                                                                         |
|--------------------------------------|-----------------------------------------------------------------------------------------|
| <a href="#">WD-4857</a> <sup>1</sup> | Show indication and download option for attached files on process-item in workflow-list |
| <a href="#">WD-6420</a> <sup>2</sup> | Hide placeholder widgets with default layouting (layout columns1 columns2, row)         |
| <a href="#">WD-6417</a> <sup>3</sup> | Expand Tab to fullscreen                                                                |

## Improvements

|                                       |                                                                                                     |
|---------------------------------------|-----------------------------------------------------------------------------------------------------|
| <a href="#">WD-6243</a> <sup>4</sup>  | Two-Factor-Authentication: focus of the cursor should be automatically in the input field           |
| <a href="#">WD-6120</a> <sup>5</sup>  | Action URL changes to .kont in Rescheduling UI after doing a page-submit                            |
| <a href="#">WD-6407</a> <sup>6</sup>  | Color of App Header in Application Switcher on Android should be in wf blue                         |
| <a href="#">WD-5588</a> <sup>7</sup>  | Correction-client day-view: "Saldo" field in edit-mode doesn't display the current value            |
| <a href="#">WD-6396</a> <sup>8</sup>  | Deploy kiosk-app branch automatically as docker Nginx container                                     |
| <a href="#">WD-6394</a> <sup>9</sup>  | UX Improvements in WD-ProjectTime Mobile                                                            |
| <a href="#">WD-6340</a> <sup>10</sup> | Enable versioning functionality for BIRT reports upload                                             |
| <a href="#">WD-6374</a> <sup>11</sup> | Layout space usage in header form of ps_editSalaryAccounting.act                                    |
| <a href="#">WD-6302</a> <sup>12</sup> | Workflow Mobile should show a nice and funny icon when no open todos                                |
| <a href="#">WD-6303</a> <sup>13</sup> | Change color of title bar on all Workflow Mobile Apps                                               |
| <a href="#">WD-6395</a> <sup>14</sup> | UX Improvements in WD-Time Mobile                                                                   |
| <a href="#">WD-6354</a> <sup>15</sup> | When creating a new relation and the selected one is invalid, selection can not be set to new row   |
| <a href="#">WD-6416</a> <sup>16</sup> | executeAndSendReports: display action name additionally to the action caption in the action chooser |

## Tasks

|                                       |                                                                        |
|---------------------------------------|------------------------------------------------------------------------|
| <a href="#">WD-6405</a> <sup>17</sup> | Cleanup Ancient Featuretoggles for SPA                                 |

## Bug-Fixes

|                                       |                                                                                                                               |
|---------------------------------------|-------------------------------------------------------------------------------------------------------------------------------|
| <a href="#">WD-5884</a> <sup>21</sup> | Licensing: Incorrect licencing under ta-if6020-booking                                                                        |
| <a href="#">WD-6406</a> <sup>22</sup> | Deleting bank-accounts in person-editor not working                                                                           |
| <a href="#">WD-6237</a> <sup>23</sup> | executeAndStoreReports: output pdf validation not working if file already exists in target                                    |
| <a href="#">WD-5906</a> <sup>24</sup> | Connector list - search result is lost after editing connector                                                                |
| <a href="#">WD-5963</a> <sup>25</sup> | Action permissions - wrong behaviour when assigning persons with permission own person (on day of assignment)                 |
| <a href="#">WD-6426</a> <sup>26</sup> | Assigned Requests are not open because of missing ID                                                                          |
| <a href="#">WD-6449</a> <sup>27</sup> | Exchange 2016 Error SSLContexts                                                                                               |
| <a href="#">WD-6050</a> <sup>28</sup> | My Travels Report displays an error message                                                                                   |
| <a href="#">WD-5649</a> <sup>29</sup> | Validation is performed not against current form state but against its previous state. Encountered in Vacation Request.       |
| <a href="#">WD-6400</a> <sup>30</sup> | Adding a new termination on tab "Resignation" causes NullPointerException                                                     |
| <a href="#">WD-6318</a> <sup>31</sup> | Missing translation for application name (branding) in browser tab title                                                      |
| <a href="#">WD-3786</a> <sup>32</sup> | Edit PTM effort mobile full-screen dialog is not closed when the close-icon is tapped, running effort only                    |
| <a href="#">WD-6451</a> <sup>33</sup> | AuditLog Error during update PW-Abnahme                                                                                       |
| <a href="#">WD-6357</a> <sup>34</sup> | Travels cannot be deleted from travelfolders                                                                                  |
| <a href="#">WD-6333</a> <sup>35</sup> | Kiosk-app branch fails to build on Jenkins                                                                                    |
| <a href="#">WD-6471</a> <sup>36</sup> | Whitescreen in latest alpha for WD-ProjectTime Mobile                                                                         |
| <a href="#">WD-5848</a> <sup>37</sup> | Update-on-focus in stop-watch must not perform while user scrolls                                                             |
| <a href="#">WD-5485</a> <sup>38</sup> | Project Time Booking mobile shows empty screen after tapping "Save", and validation error on ground screen after closing this |
| <a href="#">WD-6401</a> <sup>39</sup> | NullPointerException in LoginTokenUtils when using Interflex card to book attendance                                          |
| <a href="#">WD-6360</a> <sup>40</sup> | An empty PDF report is generated (Birt)                                                                                       |

|                       |                                                                                                   |
|-----------------------|---------------------------------------------------------------------------------------------------|
| WD-6418 <sup>41</sup> | Changes on efforts in WD-ProjectTime Mobile are not persisted                                     |
| WD-6419 <sup>42</sup> | In WD Time Mobile the login behavior changed so that login page is shown                          |
| WD-6470 <sup>43</sup> | Buttons not clickable in WD-Workflow Mobile                                                       |
| WD-5893 <sup>44</sup> | HR-Expert: input fields get cut off in person details                                             |
| WD-6389 <sup>45</sup> | Small bugs in WD-ProjectTime Mobile                                                               |
| WD-6380 <sup>46</sup> | Encoding Error displaying the actual Booking State in WD-Time Mobile                              |
| WD-6322 <sup>47</sup> | Exception headline is missing when Webdesk/Cocoon reports such to the user                        |
| WD-6383 <sup>48</sup> | Textarea in output mode does not break lines                                                      |
| WD-5917 <sup>49</sup> | Render Issues with Motorola G5, Z5 Play                                                           |
| WD-6483 <sup>50</sup> | IE: Menu is not click able in responsive skin                                                     |
| WD-6485 <sup>51</sup> | IE: Quick note does not work                                                                      |
| WD-6482 <sup>52</sup> | IE: User menu does not open in responsive skin                                                    |
| WD-6484 <sup>53</sup> | IE: Home page foto is not change able                                                             |
| WD-6452 <sup>54</sup> | Sorting person list by username causes an exception                                               |
| WD-5654 <sup>55</sup> | After navigation in correction-client's day-view, switching to month-view shows a different month |
| WD-6403 <sup>56</sup> | Reset Password -> Change Password Button in Login Mask not working                                |
| WD-6525 <sup>57</sup> | IE Browser detection does not work correctly                                                      |
| WD-6486 <sup>58</sup> | Edit projecttimes: Can not navigate into next week (invisible notification panel in foreground)   |
| WD-6203 <sup>59</sup> | Tabbed pane moves rightmost tab to a wrong location below when window is getting narrow           |
| WD-6243 <sup>60</sup> | Two-Factor-Authentication: focus of the cursor should be automatically in the input field         |
| WD-6120 <sup>61</sup> | Action URL changes to .kont in Rescheduling UI after doing a page-submit                          |
| WD-6407 <sup>62</sup> | Color of App Header in Application Switcher on Android should be in wf blue                       |
| WD-5588 <sup>63</sup> | Correction-client day-view: "Saldo" field in edit-mode doesn't display the current value          |
| WD-6396 <sup>64</sup> | Deploy kiosk-app branch automatically as docker Nginx container                                   |
| WD-6394 <sup>65</sup> | UX Improvements in WD-ProjectTime Mobile                                                          |
| WD-6340 <sup>66</sup> | Enable versioning functionality for BIRT reports upload                                           |

|                                       |                                                                      |
|---------------------------------------|----------------------------------------------------------------------|
| <a href="#">WD-6374</a> <sup>67</sup> | Layout space usage in header form of ps_editSalaryAccounting.act     |
| <a href="#">WD-6302</a> <sup>68</sup> | Workflow Mobile should show a nice and funny icon when no open todos |
| <a href="#">WD-6303</a> <sup>69</sup> | Change color of title bar on all Workflow Mobile Apps                |
| <a href="#">WD-6395</a> <sup>70</sup> | UX Improvements in WD-Time Mobile                                    |
