4.1.6

Bug

- [WD-6978[1]] - vacationrequest on the same date of an other request
- [WD-7469[2]] - Exception if "from date" and "Eintrittsdatum" inside a vacation request are the same date
- [WD-7513[3]] - Welcome: Manual resize of menu is visible on collapsed menu
- [WD-7803[4]] - wf_getOrgProcessInstances configuration: no value when choosing Processvariable in some cases
- [WD-7807[5]] - Float number rounding by Vaadin converters causes data to be considered dirty falsely
- [WD-7821[6]] - Exception when deleting a PoGroup from the trashbin
- [WD-7844[7]] - Missing progressinfo after clicking "change password"
- [WD-7878[8]] - "Add new NFC tag" fails with Cocoon error
- [WD-7883[9]] - ClassCastException when trying to open the details of a skill
- [WD-7891[10]] - absenceEntryConnector throws Nullpoint-Exception
- [WD-7919[11]] - Opening a person in HRX causes a NoSuchBeanDefinitionException
- [WD-7930[12]] - Re-Entry causes IllegalArgumentException: "There were 2 valid objects in result for validity ...."
- [WD-7941[13]] - Chooser buttons are missing in "Edit Project Time" UI

Improvement

- [WD-7725[14]] - Validation of project time against attendance time in "Projektzeit erfassen" (editTimeEfforts)
- [WD-7729[15]] - In "Master Data > Client" move Kiosk related settings from header into tab "Options"
- [WD-7839[16]] - Improve safety of CustomJacksonObjectMapper
- [WD-7871[17]] - Project's "Kiosk" tab gets redesigned into multiple sections with their content varying for different project element types/levels

New Feature

- [WD-7706[18]] - Kiosk endpoint needs functionality to pass on specific + localize-able error messages (blocks multiple issues, blocked by inquiry to Matheus)
- [WD-7730[19]] - "External Reference ID for Kiosk is mandatory" option in Master Data > Client
- [WD-7873[20]] - Enforce 0min effort duration (New configuration flag in Webdesk + REST endpoint extensions) (blocks WD-7874)

Task

- [WD-7867[21]] - WfApplication / Toolagent for setting state of PtmTimeEffort records

Sub-task

- [WD-7744[22]] - Kiosk assignment is only shown and allowed for topmost project elements of a project structure
- [WD-7872[23]] - Proper column widths in Kiosks table in Kiosk tab of Project for good readability

- [WD-7875[24]] - Configuration flag "Enforce 0min effort duration" in Webdesk > Project > Kiosk tab
- [WD-7876[25]] - Endpoint which sends project list is extended with flag "Enforce 0min effort duration". Main PTM logic is not touched!
- [WD-7877[26]] - Endpoint which can accept PTM booking with start and end time (used for "Enforce 0min effort duration")
